

U.S. Patent Information

Gaither Tool Company, Inc. is diligent in policing its patents and other intellectual property to protect against unauthorized use or infringement. The table below provides the numbers of the U.S. patents owned or exclusively licensed by Gaither Tool in association with the patented products, in compliance with the “virtual marking” requirements of 35 U.S.C. § 287(a). Corresponding patents are also pending or granted in other countries.
